PERSONAL PROFILE

With over 9 years of experience as a software engineer, I have honed my skills in a range of development roles, including iOS mobile app development, back-end engineering, and front-end engineering. During my time in the industry, I have worked on projects in various industries, including Content Publishing, Mobility, Fintech, Crypto, and eHealth, among others. In addition to my technical expertise, I have also held the position of Chief Technology Officer and have launched and managed a few startups. I am passionate about innovation and enjoy staying up to date with the latest developments in technology. With a track record of delivering high-quality results, I am confident in my ability to make a significant contribution to any development team.

CAREER HISTORY

Senior Backend Engineer @ BIG FIVE EDITIONS

July 2021 - Current (CONTRACTOR)

Architect and develop backend systems and features for a multi-tenant platform that empowers directory and marketplace mobile apps, such as implementation of Point Of Sale and integration of Mobile Money Payments in Cote d'Ivoire.
